

Judge A. Nicol
Judge County Court Pr. Wm. Co.

We the undersigned by order of your honour visited the jail and make an examination of one Starbuck confined in said jail as a lunatic. We have to report that upon through and careful examination find the said Starbuck at this time perfectly sane in mind and memory. But will further state that the said Starbuck is subject to epilepsy. Consequently at times insensibility continues after the convolutions have ceased and the patient is often confused and incoherent for a time. And in some cases sinks into hopeless futurity or imbecility or insanity but not always as Julius Caesar – Mahomet & Bonaparte were all subject to epilepsy and retained their intellectual capacity to the last.

Starbuck may have been temporally insane from these attacks but at this time is perfectly sane.

Respectfully Submitted
